

NOMANSLANDING LAMENT

We will meet you at the river
We'll draw closer on the tide
You can hear us in the water
From the shore to the other side

All our lives brought here together
To flow before your eyes
At last on Nomanslanding
Cast off the line untied

Spare us your tears
Spare us your tears
Erspare uns die Tränen *German*
Epargnez-nous vos larmes *French*

A whisper in the darkness
A drifting on the stream
Through us you cross the river
The wake of all we've been

Our breath floats on the water
A murmur joins your own
A prayer within the darkness
A crossing faithfully done

Spare us your tears
Spare us your tears
Risparmia le lacrime *Italian*
Nedavej vase slzy *Czech*

Spare us your tears
Spare us your tears
Bespaar ons de tranen *Flemish*
Bicim icin aglama *Turkish*
